

"Enjoy your winter diving with the latest drysuit from Oceanic "

EVOLUTION 3 DRYSUIT!!

The PADI Adventures in Diving course is a fun introduction to the many specialty areas of diving. There are a variety of "Adventure Dives" you can choose from to explore a variety of adventures in diving. Completing five Adventure Dives, including the Deep Adventure Dive and the Underwater Navigation Adventure Dive, results in certification as a PADI Advanced Open Water Diver. *Some of the exciting Adventure dives we conduct include:*

UNDERWATER NAVIGATION: Dives are more enjoyable when you are able to find your way to and from the entry point. In this adventure dive we will learn the essential skill of navigating effectively underwater, using both compass and natural navigation techniques.

DEEP: There is a certain mystery and excitement associated with deeper diving, however diving below 18m safely requires added skills and knowledge. After reviewing essential knowledge with your instructor, will put new skills into practice on a deep boat dive.

PEAK PERFORMANCE BUOYANCY: Every diver wants to have precision in their buoyancy - a skill that can allow you to protect the environment and your equipment, while gliding effortlessly through the water and reducing your air consumption.

UNDERWATER NATURALIST: The focus of this adventure dive is to develop responsible interactions with the underwater world, and get to know a bit more about the creatures that live there.

WRECK: For many, the lure of "rusty metal" underwater is a powerful attraction. On this adventure dive, you'll gain an overview of wreck diving techniques, while diving on the wreck of the SS Bombo off Wollongong.

BOAT: Many exciting dive sites can't be accessed from shore, so the Boat Adventure Dive will introduce you the techniques from diving from a boat, and give you an opportunity to dive on some of the exciting dive sites around the Five Islands

AWARE – FISH IDENTIFICATION: For many, diving is about the thrill of seeing marine life in its natural environment. The AWARE - Fish Identification Adventure Dive will provide you with a basic overview of how to identify the fish species commonly found in the Illawarra and beyond

ENRICHED AIR: Since the advent of recreational diving, much has been done to extend how long we can enjoy our underwater adventures. Enriched Air (Nitrox) is a means of using oxygen enriched air to extend our No-Decompression Limits. The Enriched Air Adventure Dive will give you a taste of how easy enriched air diving can be.

FANTASTIC VALUE @ \$2599 OR \$49.98 PER WEEK WITH EXYPAY

**FREE ACCESSORY PACK
VALUED @ \$666**
